Market-Beating ‘Social’ Funds Bet on Technology, Clean Energy in 2017

Bets on environmentally and socially conscious companies last year paid off for several U.S.-based sustainable funds, which found that they could beat a robust bull

....

....

Fund managers focused on renewable energy said they were able to take advantage of a dip in clean-energy stocks following the U.S. presidential election, Renewable stocks delivered on earnings and dividends and the WilderHill New Energy Global Innovation Index returned almost 29 percent.
