### Rationale for Market Consultation

The Indices capture climate change solutions. It is composed of companies worldwide whose innovative technologies focus on clean energy, renewables, decarbonization, and efficiency.

In order to facilitate efficient tracking by financial products linked to the Indices without causing a major disruption in the market, Solactive has determined to amend the methodologies of the Indices and increase the time window considered for the determination of the AVERAGE DAILY VALUE TRADED. The theme has expanded significantly since the initial thresholds were set, and the companies that do not surpass the new threshold now compose a small percentage of the whole Clean Energy ecosystem.

Given the environmental aspect of the Indices, Solactive shall additionally include a sustainable screen which is based on UN Global Compact Principles and controversial activity involvement. A more detailed overview of the considered activities and thresholds for exclusion can be found below in section "Proposed Changes to Index Guideline".

### Proposed Changes to the Index Guideline

The following Methodology changes are proposed in the following points of the Index Guidelines (ordered in accordance with the numbering of the affected sections):

#### 1. Section 2.2 Selection of the Index Components

*Old text:*

[...]

Average Daily Value Traded over the last 30 days prior to the Selection Day is larger than USD 250k (Effective 01 October 2021).

[...]

*New text:*

[...]

Average Daily Value Traded over the last 3 months prior to the Selection Day is larger than USD 1 million

[...]

The companies selected after completion of the above steps will be evaluated on the criteria outlined below by the INDEX ADMINISTRATOR. The evaluation is based on data provided by the Data Provider:

- Exclude companies breaching the UN Global Compact Principles (non-compliant per Data Providers' global standards screening research).
- Exclude companies with severe controversies (as per Data Providers' controversy research) as well as companies with involvement in harmful business activities (as per Data Providers' business involvement research).

For more details on the actual fields as well as the thresholds applied for the exclusion, please refer to the table below:
